

G2 Cradle

DICE USB Cradle for iPod and iPhone Model: DCR-150

DCR-150 Features

Designed for DICE USB based products

The perfect add-on accessory for the FMRDS-USB PRO and MEDIABRIDGE.

Securely holds iPod/iPhone

Includes 6 unique, interchangeable holders designed to hold each supported iPod/iPhone model securely in place.

Built-in dock connector

Provides a simple and neat way to dock the iPod/iPhone. Cables can be hidden out of sight.

Charging

Always have the iPod/iPhone charged and ready to go with the included cigarette lighter charger.

A/V output

Play music and videos from the iPod/iPhone on properly equipped rear-seat entertainment systems.

Short and long mounting bases

Includes 2 mounting bases to provide the right amount of clearance for accessory connections.

Endless mounting options

With AMPS and iGrip mounting patterns, the G2 cradle can be mounted to most popular vehicle accessory mounts.

Ball and Cup mount

The G2 cradle can be rotated and angled for more comfortable use and easy viewing.

The DCR 150 is for use with any USB enabled iPod/iPhone integration kit and the DICE Media Bridge and FM RDS USB Pro kits. The DCR 150 enables the full iPod connection including charging and is designed to safely and securely hold an iPod/iPhone for in vehicle use. This cradle also has an audio/video output if the integration kit has video authentication and can be connected to rear seat entertainment systems.

Applications:

- DICE Media Bridge integration kits
- DICE FM RDS USB Pro
- Any car manufacture installed iPod/iPhone USB integration systems
- Any Aftermarket car radios with iPod/iPhone USB integration capability
- Any Aftermarket FM accessories with the USB + 30 pin connector
- Any Aftermarket USB integration kits from other manufactures
