2010 – 2012	ES350, HS250H, IS F, IS250, IS250C, IS350, IS350C, LS460, LS600H, LX570, RX350, RX450H	
2010 – 2011	GS350, GS450H, GS460	
2010 – 2013	GX460	
2012	LFA	
2010	SC430	

SUPERSESSION NOTICE

The information contained in this bulletin supersedes SB No. L-SB-0147-11.

The Required Tools & Equipment and Repair Procedure sections have been updated.

Service Bulletin No. L-SB-0147-11 is Obsolete and any printed versions should be discarded. Be sure to review the entire content of this bulletin before proceeding.

Navigation System Firmware Improvement (Generation 6)

Introduction

NOTE

Do NOT perform a map update until this bulletin has been performed.

Certain 2010 – 2013 model year Lexus models may exhibit one or more of the following conditions:

- Steering wheel volume controls are intermittently inoperative.
- Navigation system region code intermittently will reset to region US9.
- XM NavTraffic[®] will not function properly after renewing XM traffic subscription.
- Slow response from Bluetooth[®] address book voice commands.
- Black screen condition after shifting from Reverse to Park.
- · Air conditioning screen may not appear when changing blower speed.
- iPod[®] scrolling speed is slow.
- Display constantly shows "Calculating" on right side of screen while driving on freeway.
- Slow response at times from navigation system even at startup.
- GPS coordinates shown instead of destination address.
- Display locks up and appears unresponsive after periods of time.
- Touch screen (if equipped) functions are slow to respond.

Navigation firmware has been updated to allow updating map to version 10.1 or later. Updated navigation system software has also been developed to remedy these conditions. Use the following procedure to address these conditions.

Warranty Information

OP CODE	DESCRIPTION	TIME	OFP	T1	T2
EL9014	Navigation OS Update	0.3	86271-0E010	87	74

APPLICABLE WARRANTY

- This repair is covered under the Lexus Comprehensive Warranty. This warranty is in effect for 48 months or 50,000 miles, whichever occurs first, from the vehicle's in-service date.
- Warranty application is limited to occurrence of the specified condition described in this bulletin.

NOTE

This should be a labor claim only since navigation software is downloaded from TIS.

Navigation System Firmware Improvement (Generation 6)

Repair Procedure

Loading Map Firmware onto Navigation Update Tool

NOTE

Navigation Update Tool MUST have the latest "Navigation Programs Installer" before performing this bulletin. For installation procedure, refer to Service Bulletin No. <u>L-SB-0101-12</u>, "HDD Navigation Program Setup."

- 1. Turn on PC.
- 2. Log into the Technical Information System (TIS).
- 3. Download the appropriate Vehicle Navigation Software Update from TIS.
 - A. Click on the TIS tab.
 - B. Click on the *Diagnostics* tab.
 - C. Click on the Tools & Equipment tab.
 - D. Click on the Navigation tab under Tools.
 - E. Click on the appropriate Generation 6 Vehicle Navigation Software Update under Available Software Updates.

NOTE

If the TIS division is NOT set to Lexus (under the *My Account* area), the *Navigation* tab will NOT display. Navigation Update is a Lexus ONLY TIS option at this time.

4. Click *Open* to begin the download.

NOTE

The file is large and may take up to 10 minutes to download.

Repair Procedure

Loading Map Firmware onto Navigation Update Tool (Continued)

5. Once the file is downloaded, prepare the vehicle for use with the Navigation Update Tool. Cover the GPS antenna in a manner where GPS satellite tracking is NOT present during the navigation software update process.

HINT

Park vehicle in a structure that blocks the GPS signal, or cover the GPS antenna with a metal panel.

- 6. Connect the Navigation Update Tool to the PC using the USB cable.
 - A. Make sure the USB cable is secured in **both** the PC and Navigation Update Tool USB ports.
 - B. Confirm that the Navigation Update Tool is powered correctly.
 - C. Turn the power ON.
 - D. Click Continue.
- 7. Verify that both the transfer mode display light (green) and power supply display light (blue) are lit, then click *Continue*.
