

Service Tips for Rear Caliper Slide Pins

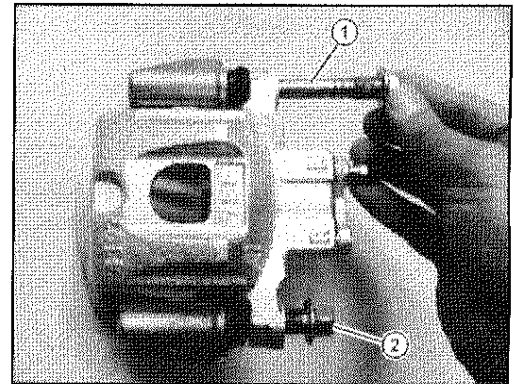

Service Tips (Continued)

- B. Install the slide pin into the upper position of the caliper and slide pin No. 2 in the lower position of the caliper.

NOTICE

- To avoid damage, do NOT insert the slide pin into the slide pin No. 2 location.
- The slide pin and slide pin No. 2 are NOT interchangeable.

3. Final Check

Make sure the left rear and right rear rotors turn easily and exhibit no drag after installation.
