Recommended Item

We have prepared recommended items that will bring high satisfaction to Lexus owners.

From high-quality items to standard products, you can choose from a wide range of lineups.

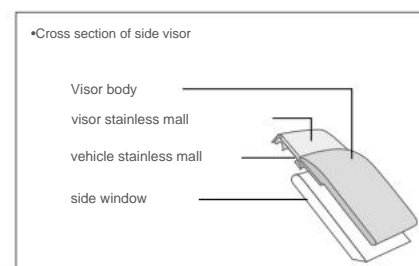

053 Wheel lock bolt & hub bolt set (black) The wheel lock bolt has a unique shape that makes it difficult to remove without a special tool. Provides high security against wheel theft. The hub bolt with the LEXUS logo accentuates the sense of luxury and gives the wheel a tight impression.

30,800 yen (28,000 yen excluding consumption tax) **0.2H**(KBLKU) setting:
 Excluding vehicles with hub bolt caps. Material: Cap/stainless steel Set contents: 16 hub bolts, 4 wheel lock bolts, 1 special key pattern lock
 *Wheel lock bolts and hub bolts (black finish) can also be purchased individually. When purchasing separately, please select 20 hub bolts (black finish).

003 side visor
 The bulge of the side visor By limiting the Wind noise when driving at high speed With consideration Beautifully toned to match the vehicle finished in the design.

38,500 yen (35,000 yen excluding consumption tax) **0.3H**(KONDY)

004 Floor mat (type A)
 Registered design rights
 I woven pile having a long bushy foot densely, Luxurious floor mats. Aiming for an extremely flat surface, By carefully crafting the ends It has a calm and elegant finish. Fixing to and removing from the vehicle floor It's as easy as turning a knob.

It has deodorizing, antibacterial, and antifouling functions.

95,700 yen (87,000 yen excluding consumption tax) <A1AA>
 Settings: IS500 "F SPORT Performance", IS350 "F SPORT", Excludes IS300 "F SPORT" and IS300 "F SPORT". Color: Black Material: Surface/Nylon, Back/Resin (TPS) *For 1 vehicle *Do not stack with other floor mats.

005 Number frame (front/rear) & lock bolt (with logo) set
 The number frame emphasizes a sense of unity with the exterior design, and is finished in the same color and quality as the body. The rock bolt features the Lexus mark, achieving both sophisticated design and high functionality. Adopting a unique shape that makes it difficult to remove the bolt without a special tool, it demonstrates high security.

24,860 yen (22,600 yen excluding consumption tax) **0.2H**(KSVUY)
 Setting: Excludes vehicles equipped with light type license plates. Color: [Number frame] Front / dark gray same color as the mounting part ("F SPORT" is black), rear / all body colors Material: [Number frame] Resin (PC ABS composite material) Set contents: Number frame (front, Rear), 3 lock bolts, 1 dedicated key pattern lock Lock bolt size: 18 mm in diameter * Number frame (front/rear) and lock bolts can also be purchased individually.

012 projection courtesy illumination
 When the driver's and front passenger's doors are opened, the logo illuminates the road surface, escorting passengers in and out of the vehicle at night in a more gentle and high-quality manner.
 24,200 yen (22,000 yen excluding consumption tax) **0.2H**(K3C3)
 *For 1 car (front) *The color and brightness of the photo are different from the actual ones. * The appearance will differ depending on the brightness of the surroundings and road conditions. *Please select when installing together with the LED bulb set.

TAKUMI STORY

優れた逸品やロングセラーは、巧みな技と先進の技術でひとつのカタチになる。
私たちのモノづくりのストーリーは、人の手によって紡がれていきます。

磨き上げた技術で、機能とデザインを鍛え上げる

ISの車両性能と魅力をさらなる高みへ引き上げるために――。

採用したのは、一目で分かる高性能を備えたBBS製のアルミホイールです。

BBSは、世界でいち早く鍛造アルミホイールの量産化に成功した業界の

先駆者。独自技術で圧倒的な軽さと強さを兼ね備えた同社のホイールは、多くのレーシングチームの信頼を勝ち取り、国内外のメジャーレースに鍛造レーシングホイールを数多く供給してきた揺るぎない実績があります。

そんなBBSと作り上げたIS専用のアルミホイールは、車両標準設定品と比較し、1台あたり7.4kg*2の軽量化を実現。軽量化を語る上で欠かせない

のが、BBS独自のノウハウを注ぎ込んだ鍛造です。純度の高い高品質なアルミを、国内に数台しかない12,000tクラスを含む複数のプレス機と、

自社製造の高精度な金型を用い、1次、2次、3次と回数を重ねて鍛造を行います。ホイールのベース形状から意匠面まですべてを鍛造で手掛ける複雑な工法により、「鍛錬比4以上」という突出した高圧力でアルミの

密度を高めることが可能に。こだわりの技術と設備を駆使し、しなやかさと軽さを併せ持つホイールに仕上がります。また、ISのスポーティネスを昇華させる、緩やかながら迫力も感じさせるU字型の細いスポークも、

BBS独自の鍛造技術だから成せる形状です。

品質の違いを生む、機械化できない職人の感覚

鍛造のあとに施されるのが、熟練の職人による手仕上げ。職歴30年以上

の職人がホイール1本1本にじっくりと時間をかけ、精密な機械でも見抜けない表面のわずかな凹凸を修正していきます。彼らが頼りにしている

のは、手で触れたときや研磨機を当てたときに感じる、微かな違和感。まさに、熟練した人間の感覚だけが見極められる精緻な職人技です。

*2. IS350*F SPORT、IS300h*F SPORT、IS300*F SPORT*との比較。アルミホイール4本の数値。

さらに、探り当てた凹凸は削りすぎるとやり直しがきかないため、修正には極限の集中力を要します。決して失敗が許されない工程だけに、

手仕上げを担当できる職人は、BBS社内でもわずか数名。確かな技術に裏打ちされた手仕事が、レクサスにふさわしい品質を支えています。

最後まで妥協しない、モノづくりへのこだわり

剛健な印象を際立たせるマットブラックカラーも、妥協のない塗装工程の賜物です。塗装の前処理では、脱脂、水洗、酸洗浄、追加水洗、化成、仕上げ

水洗と、徹底的に汚れを落としきり、アルミと塗料が密着しやすい状態に。塗装で使う塗料も、条件に合わせて溶剤の割合や粘度を細かく調整する

など、マット感が強い独特な風合いを再現するためのこだわりが込められています。そして、全行程のしめくりに行うのが検査。ここで活躍

するのも、手仕上げと同様、人の手や目です。機械では見分けが困難なキズや凹み、塗料のダマを職人が入念にチェックします。その範囲は

スポークの裏面といった人目につかない細部にまで至る徹底ぶりです。

最後の最後まで貫かれる、クオリティ追求への飽くなき姿勢。それによって生み出される、極限まで高められた機能性、デザイン。従来のレクサス

とは一線を画すハイスペックアルミホイールは、あなたのISにこれまでにない力強い足元の存在感と、ひとつ上の感動をもたらすことでしょ

(POM)

SAFETY & UTILITY

Safety and utility items that meet the quality standards of genuine Lexus products.

We will support your future car life more comfortably and firmly.

035 Remote Start (Premium) * Integrated smart key function with remote start. No need to have both smart key and remote start. In addition to starting and stopping the engine by remote control, when the outside temperature is less than 5°C, the defroster and defogger automatically operate to quickly remove the fog on the frozen glass. Also, the door can be unlocked even during remote start operation.

88,000 yen (80,000 yen excluding consumption tax) <DEQU>

Size: L95 x W45 x H23mm (with mechanical key attached), Remote control antenna: 147mm (extended) *The built-in mechanical key will be arranged after confirming the key number of the vehicle. Please carry your keys with you.

*Please note that you may be penalized by ordinance if you start the engine without permission while the vehicle is stopped. (Please check local ordinances when purchasing.) Do not use on general public roads or in closed areas. Also, please be sure to check the safety of your surroundings before using.

038 Floor mat for snow and leisure use (height edge type) With a maximum edge height of 40mm, this waterproof mat protects the interior of the car from dirt such as rainwater, snow, and mud, making it suitable for leisure activities. A special design that fits IS, high grooves and edges that prevent stains on the hem of the pants, etc. Furthermore, two rotating knobs that firmly fix the mat prevent it from slipping while driving. Easy to install and remove.

17,600 yen (16,000 yen excluding consumption tax) <A2J7>

Color: Black Material: Synthetic rubber (SBR)

*Two front mats *Do not stack with other floor mats.

036 Remote start (basic) * Compact size considering that it can be held together with the standard smart key. Except for the smart key function, it is equipped with the same basic functions as the premium type.

68,200 yen (62,000 yen excluding consumption tax) <DERU>

Size: L63 x W36 x H19mm (excluding protrusions), remote control antenna: 156mm (when extended)

037 Genuine leather key case A genuine leather key case whose texture increases with use. The cowhide used for the smart key cover has an aniline finish, which is only allowed for high-quality leather without scratches or wrinkles. Brings transparency to the surface and enhances the fine texture of cowhide. The strap and the tag embossed with the LEXUS logo are made of horse leather with a unique texture. It has a lustrous oil finish and can be attached to a bag, etc.

17,600 yen (16,000 yen excluding consumption tax)

Yellow & Black <B1K0>, Black <B1K1>

Size: Smart key cover / L90 x W65 x H25mm Material: Smart key cover / cowhide, cover belt/strap/name part/ horse leather, eggplant ring/brass + plating Feelings vary from object to object.

039 Tire chain (alloy steel type) New structure that can be attached without moving the car back and forth. In addition, the automatic retightening mechanism that activates the force of the rubber when you start driving eliminates the need for troublesome retightening after installation, and keeps the chain fitted to the tire at all times while driving. It can be removed instantly by simply pulling the lever on the front.

31,900 yen (29,000 yen excluding consumption tax) <V1CB>

Genuine Lexus parts (Lexus dealer option) are guaranteed for 5 years and 100,000 km. The warranty period for repairs is 5 years from the date of installation (date of sale) of genuine Lexus parts (Lexus dealer option) at a Lexus dealer. However, even within that period, the mileage shall be up to 100,000 km. *For the warranty period and details of some consumables, please contact your Lexus dealer. *The warranty for genuine Lexus parts (Lexus dealer option) does not apply to car care services. For details, please contact your Lexus dealer. • When installing aluminum wheels, use the vehicle's standard hub bolts or genuine hub bolts.

Inquiries about Modelista products (P08, P12-13) Toyota Customizing & Development Co., Ltd.: [Modelista Call Center] 050-3161-1000 Reception hours: 10:00-18:00 (excluding designated regular holidays) 222-0002 800 Morooka-cho, Kohoku-ku, Yokohama City, Kanagawa Prefecture <https://www.modelista.co.jp/>

Handling Precautions •
Never attempt to modify the product after purchase, as doing so may result in serious accidents or malfunctions. • The installation of Modelista parts may prevent the garage jack from being used at the specified position. Please note. <Aero parts> • If aero parts are installed, the clearance from the road surface will become narrower, and bumps such as curbs and slopes will easily interfere with the road surface. In addition, the aero parts may be damaged if you drive with the raschel in snow or use it in a frozen (icing) state. • Aero parts are made of resin (ABS)/resin (PPE). Please note that resin (ABS)/resin (PPE) products are generally vulnerable to impacts. Please be careful especially in extremely cold weather. • Regarding painted parts, the paint color may not match the standard car completely. <Sports muffler> •When a sports muffler is installed, the clearance from the road surface becomes narrower, and it becomes easier to interfere with the road surface and protrusions due to steps such as curbs and slopes. Also, the sound quality and performance may change. Due to the nature of the material used, the sports muffler may discolor or develop rust on the surface due to heat. <Aluminum Wheels/Tires> • If you install an aluminum wheel and tire set or an aluminum wheel set (tires are installed separately at the dealer), the running noise may increase, or the drainage performance on rainy days, snowy or icy roads may cause problems. grip may be reduced. In addition, ride comfort and steering stability may differ from standard vehicles. They may wear out faster than standard car tires. Tire chains may not be used. Please note. • When installing an aluminum wheel and tire set or an aluminum wheel set (tires are installed separately at a dealer), be sure to comply with the specifications in this catalog. • If you install tires other than those set, such as studless tires, there is a possibility that they will stick out or interfere. If you install an aluminum wheel & tire set or an aluminum wheel set (tires are installed separately at a dealer) and increase the inch, some of the driving support devices and preventive safety functions equipped on the vehicle may be disabled. Action may be required. For details, please check the vehicle's instruction manual. • When installing an aluminum wheel & tire set or an aluminum wheel set (tires are installed separately at the dealer), use the vehicle's standard hub bolts.

F SPORT PARTS (MODELLISTA) is guaranteed for 60,000km for 3 years. The period during which warranty repairs can be received is three years from the date of installation (the date of sale) of F SPORT PARTS (MODELLISTA) at a Lexus dealer. However, even within that period, the mileage shall be up to 60,000 km. Modelista parts are assumed to be installed after vehicle registration.

Inquiries about TRD products (P08, P14-16) Toyota Customizing & Development Co., Ltd.: [TRD Call Center] 050-3161-2121 Hours: 10:00 to 18:00 (except designated regular holidays) 222-0002 800 Morooka-cho, Kohoku-ku, Yokohama-shi, Kanagawa <https://www.trdparts.jp/lexus/>

Handling Precautions •
Never attempt to modify the product after purchase, as doing so may result in serious accidents or malfunctions. • The installation of TRD parts may make it impossible to use the garage jack at the specified position. Please note. <Aero parts>

•When aero parts are installed, the clearance with the road surface becomes narrower, making it easier for the vehicle to interfere with the road surface due to steps such as curbs and slopes. In addition, the aero parts may be damaged if you drive with the raschel in snow or use it in a frozen (icing) state. • Aero parts are made of resin (PPE) / resin (PPE&AES). Please note that resin (PPE) / resin (PPE&AES) products are generally vulnerable to impacts. Please be careful especially in extremely cold weather. • Regarding painted parts, the paint color may not match the standard car completely. <Sports muffler>

•When a sports muffler is installed, the clearance from the road surface becomes narrower, making it easier for the vehicle to interfere with the road surface and protrusions due to steps such as curbs and slopes. Also, the sound quality and performance may change. The sports muffler may discolor or rust on the surface due to the nature of the material. <Aluminum Wheels/Tires> • If you install an aluminum wheel and tire set or an aluminum wheel set (tires are installed separately at the dealer), the running noise may increase, or the drainage performance on rainy days, snowy or icy roads may cause problems. grip may be reduced. Also, ride comfort and steering stability may differ from standard vehicles. • If you install tires other than those set, such as studless tires, there is a possibility of protrusion or interference.
