#### SUPERSESSION NOTICE

The information contained in this bulletin supersedes SB No. L-SB-0101-12.

• The entire bulletin has been updated.

Service Bulletin No. L-SB-0101-12 is Obsolete and any printed versions should be discarded. Be sure to review the entire content of this bulletin before proceeding.

#### Introduction

Lexus models equipped with Hard Disk Drive (HDD) Navigation may have their map data, Compact Disc Database (CDDB), and navigation head unit software updated using the Navigation Update Tool and the HDD Navigation Programs Installer.

The Navigation Programs Installer is a PC application available on the Technical Information System (TIS) and must be installed on Techstream or an equivalent PC. The Navigation Update Tool is an essential service tool and the device must be properly configured before initial use.

### Introduction (Continued)

Follow the procedures in this bulletin to locate and install the HDD Navigation Programs Installer and properly configure the Navigation Update Tool. The HDD Navigation Programs Installer is a mandatory application that will be used to update the vehicle's map data, as well as the CDDB data.

This bulletin will outline two processes that must be completed to prepare the Navigation Update Tool for initial use:

- Download and install the Navigation Programs Installer onto a PC.
- Perform initial setup of the Navigation Update Tool.

### NOTE

- In order to perform the download and setup procedure, the PC being used MUST be put in ADMINISTRATOR MODE. Software will NOT complete setup if this is not met.
- Before performing this procedure, disconnect all other USB peripheral and external storage devices (i.e., USB thumb drives, hard drives, cameras, mice, etc.).
- For additional details, refer to the applicable Navigation Update Tool Operating Manual on the Technical Information System (TIS): *Diagnostics – Tools & Equipment – Navigation – Reference Documents:*
  - Windows 7/8 Navigation Update Tool Operating Manual
  - Windows XP Navigation Update Tool Operating Manual

Additional SSTs may be ordered by calling 1-800-933-8335.

### **Application Installation**

The Navigation Programs Installer should be installed on one or more of the dealership's Techstream units, or any equivalent service department PC.

Minimum PC requirements for the application to operate properly include:

- Windows<sup>®</sup> XP
- Internet Explorer Version 6 SP2
- 512 MB RAM
- 1.0 GHz processor
- 20 GB free hard drive space
- 2 free USB ports

# Download and Install Navigation Programs Installer

- 1. Turn on PC.
- 2. Log into TIS.
- 3. Download the Navigation Programs Installer from TIS.
  - A. Click on the T/S tab.
  - B. Click on the *Diagnostics* tab.
  - C. Click on the Tools & Equipment tab.
  - D. Click on the Navigation tab under Tools.
  - E. Click on either Windows<sup>®</sup> 7/8 Navigation Programs Installer or Windows<sup>®</sup> XP Navigation Programs Installer under Available Software Updates.

# NOTE

If the TIS division preference is NOT set to *Lexus* (under the *My Account* area), the Navigation Update Tool tab will NOT display. HDD Navigation information is a Lexus ONLY TIS option at this time.

# **Application Installation (Continued)**

6. Click Next.

4. Click *Run* from the *File Download* - *Security Warning* screen to begin download.

9. Click Close.

**Tool Setup** 

# Perform Initial Setup for Navigation Update Tool

#### WARNING

Do NOT perform setup if you have key files loaded onto the Navigation Update Tool with an older version; otherwise, the key files could be erased and key files CANNOT be recovered. Call the Denso Nav Help Desk at 1-888-285-4236 for assistance.

#### NOTE

- In order to perform the following procedure, the PC being used MUST be put in ADMINISTRATOR MODE. Software will NOT complete setup if this is not met.
- Before performing this procedure, disconnect all other USB peripheral and external storage devices (i.e., USB thumb drives, hard drives, cameras, mice, etc.).

# **Tool Setup (Continued)**

Setup ONLY needs to be completed once for each Navigation Update Tool.

1. Open the *Navigation Programs Installer* by clicking the icon on the desktop.

2. Click Setup in the Navigation Update Tool Main Menu.
