Title:

**CUSTOMIZE PROGRAM CARD
VERSION 1.0**

Models:

'98 LS 400, '98 GS 400 & GS 300

Introduction	The Customize Program Card for the Lexus Diagnostic Tester allows Lexus Dealers to customize many of the electrical functions on LS 400 and GS 400/300 vehicles to match individual customer desires. This bulletin will provide you with a comprehensive list of available features for customization.
Affected Vehicles	• **1998** model year **LS 400**, **GS 400**, and **GS 300** vehicles.

**Parts
Information**

OTC PART NUMBER	PART NAME
2002456	Customize Program Card Version 1.0

• Replacement Customize Program Cards can be ordered through the Lexus Special Service Tool Program by calling **OTC** at **1–800–933–8335**.

**Service
Procedures**

1. Follow the procedure in the Customize Program Card Operator's Manual to set the vehicles functions as desired.

2. When customizing, a detailed description including the **"Item Selected"**, the old setting, and the new setting must be entered into the Lexus National Service History as a vehicle note.

EXAMPLE:
If changing the WIRELESS BUZZ VOLUME function from MID2 to MAX enter the following information into the National Service History Vehicle Notes:

```
Customize Service – WIRELESS BUZZ VOLUME / old – MID2 / new – MAX
```

NOTE:
Having these records in the National Service History is very important. If a customer decides that he/she preferred a previous setting, a simple explanation may not provide enough information to reset the correct function to the preferred setting. The National Service History can be used in conjuction with the customers explanation to verify that the correct function is being reset.

**Warranty
Information**

OPCODE	DESCRIPTION	TIME	OPN	T1	T2
N/A	Not applicable to warranty	–	–	–	–

**Customize
Parameter
Information**

The table on the following pages describes which customize functions and items are available on the Customize Program Card.

Lexus Supports ASE Certification
